

NYEIN PHYOE AUNG

JUNIOR WEB DEVELOPER

A highly motivated junior web developer with a strong IT background, I specialize in developing and maintaining websites and web applications using programming languages. I have hands-on experience with JavaScript frameworks like React and Angular. I am passionate about creating efficient, user-friendly, and scalable web solutions. My technical skills are complemented by problem-solving abilities and a collaborative approach. I thrive in fast-paced environments and am always eager to learn and implement new technologies.

Education

University Of Technology -
Yatanarpon Cyber City

Information Science Technology

Dec 2017 - March 2020

Skills

- JavaScript
- TypeScript
- React
- Angular
- HTML
- CSS
- Tailwind
- Bootstrap
- Next
- NodeJs
- MySQL
- Firebase
- Mongoose

Certificates

- Meta Front-End Developer - Coursera
- Professional Web Developer Course - Fairway Technology
- The Complete Java Programming - ACU Project
- The Complete C++ Programming - ACU Project

Experience

Apr 2024 - Nov 2024

Partner Associates Int'l Co.,Ltd

Associate Developer

- Frontend Development with Angular: Developed and maintained responsive and user-friendly web applications using Angular. Leveraged Angular's two-way data binding, dependency injection, and component-based architecture to create dynamic single-page applications (SPAs).
- Database Management with MySQL: Designed and managed MySQL databases to support web applications. Created efficient database schemas, wrote complex SQL queries, and optimized database performance.
- Data Conversion and Migration: Assisted in data conversion and migration projects using SQL Server Management Studio (SSMS) and MySQL. Developed basic scripts and tools to support data extraction, transformation.
- Agile Methodologies: Actively participated in Agile development processes, including Scrum and Kanban. Engaged in regular sprint planning, daily stand-ups, and retrospective meetings to ensure project progress and team alignment. Collaborated closely with cross-functional teams to deliver high-quality web solutions on time.

Some Projects I've Built

● **Portfolio**  [Source Code](#)  [Live At](#)

My portfolio website is built with Next.js and TailwindCSS.

● **MERN Estate**  [Source Code](#)  [Live At](#)

Build a dynamic features of Modern Real Estate Marketplace with React, Express, Node, MongoDB and TailwindCSS.

● **Moviemissile**  [Source Code](#)  [Live At](#)

A movie info app with a variety of features and paginations that uses The Movie DB to deliver the information of movies built with React, Firebase and TailwindCSS.

● **Yaycha**  [Source Code](#)  [Live At](#)

A mini app that enables users to interact with each other through post, comments and likes features built with React, MUI, PrismaORM and TailwindCSS.

● **Shadcn Table**  [Source Code](#)  [Live At](#)

A data table component with server side rendering, pagination, sorting, filtering and custom view using Next.js, Shadcn/ui, Zustand and TailwindCSS.

● **Note App**  [Source Code](#)  [Live At](#)

A mark down note app project built with React, Firebase adding to the firebase and features of more modified notes adding to the top and deleting notes.
